Portfolio: www.designarea.co.il

PROFESSIONAL SUMMARY

Senior product designer with 13+ years turning complex systems into clarity - across **enterprise SaaS, e-commerce, telecom, B2B/B2C**. Specializes in UX strategy, design systems, and AI-driven products, building trust through explainability and human-in-the-loop design. Works **code-first in Claude Code**.

CORE SKILLS

UX Strategy, UI Design, Design Systems, Information Architecture (OOUX), Agentic AI Design, UI Motion & Micro-interactions, User Research, Usability Testing, A/B Testing & Experimentation, Funnel Analytics & CRO.

Design Tools: Figma (incl. variables, tokens), Illustrator, Photoshop.

AI Tools: ChatGPT, Claude, Claude Design, Copilot, Lovable, Midjourney, Kling, Runway.

Code-First Design: Builds components and feature prototypes in Claude Code. Hands-on in Angular, HTML/CSS, TypeScript; VS Code, GitLab.

Strengths: Cross-functional collaboration, design leadership, stakeholder management, problem-solving, adaptability.

EXPERIENCE

Lead Product Designer, UX/UI Expert in IT department | Partner - Telecom • 02/2022 - 06/2026

- **Cross-Functional Design Lead:** Sole design lead on every new project across the full IT organization - designing the products for **Communications, ERP, DevOps, Engineering, Fintech** and Sales CRM. Research-led: user interviews, field studies, war-room pilots, usability tests.
- **AI Decision Support:** Fiber-network ops - real-time telemetry into clear decisions, with confidence scores and operator override; ~50% faster technician assignment.
- **Core CRM & Sales Platform:** Led design for Partner's operational backbone - nearly every department works in it, with role- and department-based views. Serves a subscriber base covering roughly a third of Israel.
- **Cellular Order Architecture B2C:** Redesigned bundled cellular sales - multiple lines and numbers with a mix of devices, accessories and equipment in one order. Cut average handling time from 9 minutes to 1.5 minutes.
- **B2B Provisioning:** Complex telecom projects - nested orders, engineering, automation; dense specs into simple quotes. ~30% throughput; billing ~10% to zero.
- **Partner Electric:** Entry to the electricity market - concept to production in 2 months, full regulatory and billing compliance.
- **Modular Design System:** Built on Atomic Design and Figma variables - primitives to semantic tokens to production components, adopted across products.

Head of UX/UI & Creative | ElephantStock - US e-commerce art & home décor • 06/2019 - 01/2022

- **Growth & Scaling:** Contributed to 3x revenue growth as the company scaled from 30 to 200+ employees; built the design team from scratch.
- **Strategic Leadership:** Selected for Google E-commerce Growth Lab (Top 10); led UX, product, and creative strategy.
- **Product Optimization:** Data-driven design across the full 200K+ SKU catalog - competitive analysis, funnel analytics, A/B tests, polls, CRO. Checkout 5 to 3 steps, lifting conversion.

Product Designer | Niloosoft - Enterprise Recruitment SaaS • 05/2013 - 07/2018

- **Recruitment SaaS:** Built recruitment tooling from the ground up - powerful filtering and a fast results matrix for high-volume hiring. **White-Label:** Recruitment engine embedded into client sites and systems.

EDUCATION

- **Diploma in Graphic Design and Visual Communication** - Western Galilee College.
- **Additional studies:** UX/Product Design, Animation, Front-End Dev, AI Security.
- **Languages:** English (Fluent), Hebrew / Russian (Native).
