Portfolio: www.designarea.co.il

PROFESSIONAL SUMMARY

Senior product designer, 13+ years across **B2B / B2C - enterprise SaaS, telecom, fintech, DevOps, e-commerce**. Turns complex, rule-bound, data-heavy workflows into clarity - research-driven, hands-on from discovery to implementation-ready design, with regulatory and billing compliance experience. Designs AI products people have to trust: confidence scores, human-in-the-loop, operator override. Works code-first.

CORE SKILLS

UX Strategy, UI Design, Design Systems, Information Architecture (OOUX), Agentic AI Design, UI Motion, User Research & Usability Testing, A/B Testing & Experimentation, Funnel Analytics & CRO, Responsive & Multi-Device Design.

Tools: Figma expert (variables, tokens, Make) Illustrator, Photoshop • AI: Claude (Code, Design), ChatGPT, Copilot.

Code-First: Builds components and feature prototypes in Claude Code. Hands-on in Angular, HTML/CSS, GitLab.

EXPERIENCE

Lead Product Designer | Partner - Telecom & Fintech • 02/2022 - 06/2026

- **Cross-Functional Lead:** Sole design lead across Communications, CRM, ERP, DevOps Engineering, Fintech. Research-led: interviews, field studies, war-room pilots, usability tests.
- **Core CRM:** Partner's operational backbone - the desktop system nearly every department works in, serving roughly a third of Israel's population. Adapted for tablet and mobile, plus a standalone tablet rapid-sales system.
- **Cellular Sales B2C:** Cut average handling time from 9 minutes to 1.5 - bundled orders with multiple lines, numbers and devices in one transaction.
- **B2B Provisioning & Billing:** Raised throughput ~30% and closed billing leakage from ~10% to zero - nested enterprise orders and automation turned into simple quotes.
- **AI Call Summary:** Shipped an AI feature reps and managers use daily - a call recording condensed into a summary, with a link back to the source so nobody trusts it blind.
- **Fiber Dispatch:** Redesigned technician dispatch from tables to a live map with prioritization, in daily use. Then designed and demoed an agentic layer as a concept - the agent proposes, the admin decides.
- **Partner Electric:** Electricity-market launch, live in 2 months - full regulatory and billing compliance.
- **Design System:** Built following Atomic Design - adopted across products with front-end engineers.

Head of UX/UI & Creative | ElephantStock - US e-commerce • 06/2019 - 01/2022

- **Growth & Scaling:** Contributed to 3x revenue growth as the company scaled from 30 to 200+ employees; worked from Israel with US teams. Google E-commerce Growth Lab (Top 10).
- **Design Team:** Built, hired and mentored the team from scratch.
- **Conversion & Experimentation:** Cut mobile-first checkout from 5 steps to 3 across a 200K+ SKU catalog, lifting conversion - A/B testing, polls and funnel analytics.
- **Product & Marketing Bridge:** Led UX, product, branding and creative strategy - campaigns, email and video.

Product Designer | Niloosoft - Hunter HRMS, Enterprise HR SaaS • 05/2013 - 07/2018

- **First & Sole Designer:** Built the product and brand from zero - a multilingual enterprise HR platform that takes a person from candidate to employee: sourcing, hiring, onboarding and the full employee record.
- **High-Volume Hiring Workflows:** Applicant tracking end to end - filtering engine, results matrix, permissions and roles.
- **Multi-Sided System:** One product, 4 sides - recruiter, hiring manager, employee and candidate.
- **White Label:** Branded career websites for client companies on Hunter's engine, plus a mobile video interview app.

EDUCATION & LANGUAGES

Diploma in Graphic Design & Visual Communication - Western Galilee College (WIZO branch). Additional studies: UX/Product Design, Animation, Front-End, AI Security. **Languages:** English (fluent), Hebrew and Russian (native).
